To whom it may concern:

Sterling Deaerator Company has had the pleasure of working with American Transport Systems for many years. The professionalism, communication, and timely delivery of our equipment from small to extremely large on every project that Jane and the team delivers is simply fantastic. This starts from the time you ask for a quote and does not end until proof of delivery is provided. Sterling Deaerator Company highly recommends American Transport Systems to future clients and knows that you will receive the same level of service on your projects.

Sincerely,

Fred Quintana
